

for research use only

Product: Bovine Vascular endothelial growth factor A,

VEGF-A ELISA Kit

Specificity: Recombinant and nature Bovine Vascular endothelial

growth factor A, VEGF-A

Synonyms: Vascular endothelial growth factor A(VEGF-A),;

Vascular permeability factor(VPF);

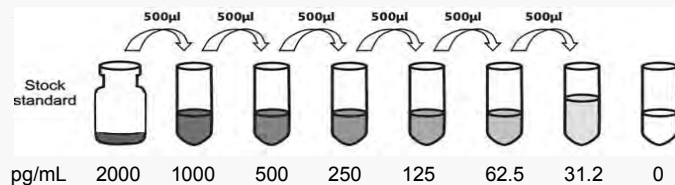

Catalog No.: AAA23341 Sandwich

Standard Preparation

Reconstitute the Standard with 2.0 mL of Sample Diluent. This reconstitution produces a stock solution of 2000 pg/mL. Allow the standard to sit for a minimum of 15 minutes with gentle agitation prior to making serial dilutions (Making serial dilution in the wells directly is not permitted).

The undiluted standard serves as the high standard (2000 pg/mL). The

Sample Diluent serves as the zero standard (0 pg/mL).

Detection Range: 31.2 pg/mL-2000 pg/mL.

Performance Characteristics: Intra-Assay CV: ≤5.6%

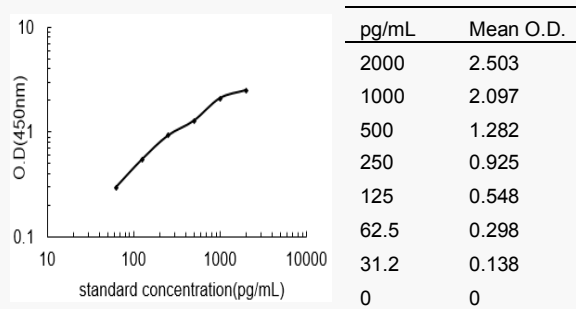

Inter-Assay CV: ≤8.9%

Spike Average Recovery: 90%

Typical Data

Results of a typical standard curve are provided for demonstration only and should not be used to obtain test results.

A standard curve must be run for each set of samples assayed.

IMPORTANT: Please refer to the supplied protocol for more information before the beginning.
